Proof of the Existence of God

“Atheists say that no one  
can prove the existence  
of God...and they’re right.  
But I say, no one can  
disprove that God exists.”

- Josh Wheaton  
**God’s Not Dead**

**Romans 1:18-20** For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who hold the truth in unrighteousness; Because that which may be known of God is manifest in them; for **God hath shewed *it* unto them. For the invisible things of Him from the creation of the world are clearly seen, being understood by the things that are made, *even*** His eternal power and Godhead; so that they are without excuse:

**Romans 1:18-20** But God shows His anger from heaven against all sinful, wicked people who suppress the truth by their wickedness. They know the truth about God because He has made it obvious to them. **For ever since the world was created, people have seen the earth and sky. Through everything God made, they can clearly see His invisible qualities—His eternal power and divine nature.** So they have no excuse for not knowing God.

**Psalms 19:1-6** The heavens declare the glory of God; and the firmament sheweth His handywork. Day unto day uttereth speech, and night unto night sheweth knowledge. There is no speech nor language, where their voice is not heard. Their line is gone out through all the earth, and their words to the end of the world. In them hath He set a tabernacle for the sun, which is as a bridegroom coming out of his chamber, and rejoiceth as a strong man to run a race. His going forth is from the end of the heaven, and his circuit unto the ends of it: and there is nothing hid from the heat thereof.

"There's more code and sophisticated nanomachinery in just one of your forty trillion cells than in your smartphone and probably every other gadget you own. If the code and nanomachinery in your smartphone requires intelligence, wouldn't the far superior technology inside of you also require intelligence?"

I *build* molecules for a living,  
I can't begin to tell you how  
difficult that job is. I stand  
in **AWE** of **God**  
because of what he has done  
through his creation. Only a  
rookie who knows *nothing*  
about science would say  
science **takes away** from  
faith. If you really **study**  
science, it will bring you  
CLOSER to God.

The Illogical Atheist

I came to know Jesus Christ because I did not find in science the answers to life's questions for which I was searching. Actually, the more I learnt about science, the more - not less - evidence I saw of God's creation and design. The very complexity of a human eye is, in fact, the most powerful evidence of the existence of God.

Everything Has A Beginning

A composite image featuring a dark, silhouetted tree in the foreground, set against a vibrant night sky. The sky is filled with numerous stars and the colorful, glowing bands of the Milky Way galaxy, which arch across the upper half of the frame. The tree's branches are spread out, and its trunk is visible. The overall scene is a blend of nature and cosmic imagery.

**This tree had a beginning. The mountains  
had a beginning. The stars had a beginning.  
There is no scientific evidence opposing this.**

**THE KALAM COSMOLOGICAL ARGUMENT:**

- 1. Everything that begins to exist must have a cause.**
- 2. The universe began to exist.**
- 3. Therefore, the universe had a cause.**

# **PROVING THAT GOD EXISTS**

## **IN 7 SIMPLE AND LOGICAL STEPS\***

1. The universe exists.
2. The universe cannot be infinitely old; because if it were, it would have entered into a state of entropy long ago. Entropy is the second Law of thermodynamics which states that all things are moving toward chaos and non-usable energy. In other words, everything is running down.
3. The universe is not in a state of non-usable energy; therefore, it is not infinitely old. If the universe were infinitely old, the universe would have run out of usable energy long ago.
4. Since the universe is not infinitely old, it had a beginning.
5. The universe could not have brought itself into existence.
6. Something before the universe and greater than the universe had to bring the universe into existence. That something, by definition, was necessarily supernatural, existing outside of the laws of physics and nature.
7. That something is God, who is, by definition, supernatural, all-powerful, infinite and eternal.

\*Works by great physicists, including Einstein and Hawking support these claims.

# The Four Miracles of Atheism

1. Getting Something from Nothing.
2. Getting Life from Non-Life.
3. Getting Order from Chaos.
4. Getting the Immaterial from Physical Matter.

**Romans 2:14-16** For when the Gentiles, which have not the law, do by nature the things contained in the law, these, having not the law, are a law unto themselves: Which shew the work of the law written in their hearts, their conscience also bearing witness, and *their* thoughts the mean while accusing or else excusing one another;) In the day when God shall judge the secrets of men by Jesus Christ according to my gospel.

**Acts 14:15-17** ...ye should turn from these vanities unto the living God, which made heaven, and earth, and the sea, and all things that are therein: Who in times past suffered all nations to walk in their own ways. Nevertheless **He left not Himself without witness, in that He did good, and gave us rain from heaven, and fruitful seasons, filling our hearts with food and gladness.**

we learn some interesting things about this God who created the universe. He is:

- Supernatural in nature (as He exists outside of His creation)
- Incredibly powerful (to have created all that is known)
- Eternal (self-existent, as He exists outside of time and space)
- Omnipresent (He created space and is not limited by it)
- Immaterial (because He transcends space)
- Personal (the impersonal can't create personality)
- Necessary (as everything else depends on Him)
- Intelligent (supremely, to create everything)
- Purposeful (as He deliberately created everything)
- Moral (no moral law can exist without a lawgiver)
- Caring (or no moral laws would have been given)
